

Sundown Equine Yellow

- Composts very quickly, resulting in a smaller muck heap
- Chopped and double de-dusted bedding made from oil seed rape plant
- Pleasant eucalyptus fragrance
- Highly absorbent due to pithy inner core
- Tough outer shell, providing a long lasting bed
- Impressive coverage
- Treated against moulds

Sundown Equine Green

- Our most economical equine bedding
- Chopped and double de-dusted straw
- Treated against moulds
- Highly absorbent
- Easy to compost
- Good insulation qualities
- Freshly scented with eucalyptus which helps prevent horses eating their bedding and clears airways
- Much easier to spread and muck out than unprocessed straw

Delivery

Sundown Products have been manufacturing premium horse bedding for nearly 15 years and provide a simple efficient and cost effective delivery service.

Sundown bedding can be delivered nationwide on large or smaller trailers.

Trouble free unloading as lorries are equipped with mounted forklift trucks that are able to off load from one side.

Delivery is subject to minimum order quantities.

Please telephone for delivery details and prices.

Sundown Gold

- Large and medium size flakes
- Premium quality super clean wood flakes with bark removed
- Carefully sieved to remove smaller particles and dust
- Provides a durable, comfortable bed
- A larger wood flake which provides a superior bed structure
- Precisely dried but soft flakes to ensure that flakes do not break down and offer maximum absorbency and comfort
- Shavings specifically manufactured from local timber and not an industry by-product
- Dried pine provides sterile white flakes with natural antiseptic qualities

Sundown Silver

- A mix of larger and smaller flakes but still with minimum dust
- Purpose cut from freshly debarked pine trees
- Heat treated to ensure absence of moulds
- Carefully dried but soft flakes to ensure maximum absorbency and comfort
- Shavings specifically manufactured from local timber and not an industry by-product
- Pine provides clean white flakes with natural antiseptic qualities

Sundown Red

- High insulation and absorbency qualities
- Chopped and de-dusted straw mixed with premium wood flakes
- Double de-dusted
- Treated against moulds
- Composts more easily than straight shavings
- Pleasant eucalyptus oil fragrance which helps prevent horses eating their bedding and clears airways
- Each bale covers up to 30% more floor area than industry standard shavings
